

Anne Krisman

I imagine I was one of the newest Shap members, approaching ten years on the committee. I do feel honoured to have been part of this prestigious group.

I enjoyed the opportunity of working with our talented photographer, David Rose, to put together the Pictorial Calendar. Before things were communicated through computers, we had some very pleasant editorial meetings. I added captions to the photographs and also was able to put a few photographs in as well. Looking back, those glossy calendars are vivid and impressive. I have also been able to help a little with the e-calendar as well. I also warmly remember presenting the Shap Award to Bill Gent.
